

Henry H015 Single Shot Rifle & Shotgun Safety Recall and Upgrade

Henry Repeating Arms Company has recently discovered a potential safety issue with H015 Single Shot Rifles and Single Shot Shotguns. Henry is voluntarily initiating a recall to protect the safety of its customers.

To prevent the possibility of death or serious personal injury, you should immediately stop using your H015 model Single Shot Rifle and/or Single Shot Shotgun and not load or fire them until they have been upgraded.

The Issue & Fix:

Under certain conditions, it is possible that some of these rifles and shotguns may discharge without the trigger being pulled if the hammer is partially cocked and released. Henry has identified the cause of the issue, and it will be corrected by replacing various components of the fire control system.

Complimentary Upgrade:

Henry Repeating Arms is also implementing a complimentary and unrelated upgrade for all firearms affected by this safety recall. This upgrade involves a replacement of the trigger guard, hammer, and hammer spring. This design change to improve and reduce the trigger pull has already been incorporated into all H015 rifles and shotguns manufactured in 2020, and will be made to your rifle or shotgun free of charge.

Models Affected:

If you have any questions regarding whether or not your Henry is a part of this recall, please contact us immediately at recall@henryusa.com or our toll-free phone number 1-866-200-2354.
